& ELECTRICAL EQUIPMENT!**

POWERTEC
PORTABLE POWER SOLUTIONS

**8500W
10.6kVA**

PTi8500 INVERTER GENERATOR

- **Peak Power:** 8500W, **Rated Power:** 8000W
- **Ideal for Backup Power:** Perfect for private homes or commercial premises and sensitive electronic equipment
- **Powerful OHV Engine** employs the latest technology for smooth running and efficient power in demanding situations
- **Lare 20L fuel tank capacity** for long running
- **The best power output-to-weight ratio on the market** - with an easy 2 man lift for 10.6kVA output!
- **2 x USB Charging Outlets (5V 1A & 5V 2.1A)** - Charge up your phone or portable tech appliances at the same time as powering your 230V needs
- **3 n 1 LED Digital Meter** - Visualise the voltage, amperage, running hours quickly and easily
- **12V 8.3A Cigarette Lighter Outlet** - For powering 12V charging requirements
- **Low Oil Alert** - Prevents machine failure due to lack of maintenance / low oil due to machine angle operation being outside recommendations
- **Eco Mode Switch** - In eco mode, the generator alters engine speed according to power needs, saving fuel in lower / variable draw situations
- **Inverter Power** - Inverter Power provides perfect output for powering sensitive electronics and all household requirements
- **Heavy Duty Wheel Kit** - Rugged wheel kit ensures reliable and easy portability in all environments
- **Strong Roll Cage Frame** - Rugged durability and protection of your machine in all environments.
- **Multiple outlets for powering anything required, including 32A IP66 outlet for powering welding machines, large power draw appliances**
- **Push Button Electric Start** - Save time and effort with simple "one touch" push button electric starting system
- **Electronic Overload Protection** - Protects machine from damage in power overload situations
- **Meets Euro 5 emissions standard, protecting the environment.**
- **Come with instruction manual, wheel kit and assembly tools.**
