& ELECTRICAL EQUIPMENT!**

POWERTEC
PORTABLE POWER SOLUTIONS

**4500W
5.6kVA**

**PTi4500
INVERTER GENERATOR**

- **Peak Power: 4500W, Rated Power: 4200W**
- **Ideal For:** home emergency power, RV travel, camping, mobile devices, and sudden power outages.
- **Powerful OHV Engine employs the latest technology for smooth running and efficient power in demanding situations**
- **Large 13L fuel tank capacity for long running**
- **Amazing power output-to-weight ratio on the market - Powerful 4.5kW output from a very compact machine**
- **2 x USB Charging Outlets (5V 1A & 5V 2.1A)** - Charge up your phone or portable tech appliances at the same time as powering your 230V needs
- **3 in 1 LED Digital Meter** - Visualise the voltage, amperage, running hours quickly and easily
- **12V 8.3A Cigarette Lighter Outlet** - For powering 12V charging requirements
- **Low Oil Alert** - Prevents machine failure due to lack of maintenance / low oil due to machine angle operation being outside recommendations
- **Eco Mode Switch** - In eco mode, the generator alters engine speed according to power needs, saving fuel in lower / variable draw situations
- **Inverter Power** - Inverter Power provides perfect output for powering sensitive electronics and all household requirements
- **Strong Roll Cage Frame** - Rugged durability and protection of your machine in all environments.
- **Multiple outlets for powering anything required**
- **Electronic Overload Protection** - Protects machine from damage in power overload situations
- **Easy '1-man' portability and storage in all environments**
- **Meets Euro 5 emissions standard, protecting the environment**
- **Instruction manual included**
